SUMMARY

Computer Science undergraduate at Kabarak University and Software Engineering graduate from Moringa School with practical experience designing and developing full-stack web applications using React, Flask, JavaScript, Python, SQL, and C++. Passionate about building scalable, user-centered software solutions that solve real-world problems. Experienced working in Agile development environments, integrating RESTful APIs, and collaborating with cross-functional teams. Eager to contribute technical expertise, creativity, and a strong problem-solving mindset to innovative software development teams.

EDUCATION

Kabarak University

Nakuru, Kenya

Bachelor of Science in Computer Science, Relevant Coursework: Data Structures & Algorithms, September 2025 – Present
Database Systems, Operating Systems, Computer Networks, Computer Systems

Moringa School

Nairobi, Kenya

Diploma in Software Engineering, Completed an intensive software engineering program covering full-stack web development, modern programming practices, software design principles, database management, and collaborative software development. February 2025 – August 2025

EXPERIENCE

Junior Software Developer

February 2025 – August 2025

Moringa School

Nairobi, Kenya

- Collaborated with Agile development teams to build responsive full-stack web applications using modern development technologies.
- Developed and integrated RESTful APIs with frontend applications to deliver seamless user experiences.
- Participated in debugging, testing, and peer code reviews to improve software quality and application performance.
- Worked closely with designers and developers to implement user-friendly interfaces and scalable backend functionality.
- Applied software engineering best practices including version control, clean coding principles, and collaborative development workflows.

PROJECTS

Moiben Technical and Vocational College (TVC) Website

- Designed and developed a modern, responsive institutional website to improve the college's online presence.
- Created intuitive navigation and user-friendly interfaces for students, staff, and prospective applicants.
- Focused on responsive design, accessibility, and performance optimization.

Online Book Store Website

- Built a full-stack online bookstore that allows users to browse, search, and manage book collections.
- Implemented product catalog management, responsive layouts, and intuitive user interfaces.
- Integrated backend functionality to support dynamic content and efficient data management.

Personal Portfolio Website

- Designed and developed a professional developer portfolio showcasing projects, technical skills, and achievements.

- Built using React, Vite, and modern frontend technologies with responsive design and smooth user experience.
- Integrated GitHub, LinkedIn, and contact information to strengthen professional online presence.

TECHNICAL SKILLS

Python
JavaScript
Java
C++
SQL
HTML5
CSS3
React
Vite
Responsive Web Design
Tailwind CSS
Flask
RESTful API Development
Git
GitHub
VS Code
Database Systems
Version Control
Agile Methodology
Object-Oriented Programming (OOP)
Data Structures & Algorithms
Database Design
API Integration
Software Testing & Debugging
Problem Solving
Team Collaboration
Communication
Critical Thinking
Adaptability
Time Management
Analytical Thinking
Attention to Detail

INTERESTS

Full-Stack Web Development; Open-Source Software; Artificial Intelligence; UI/UX Design; Cloud Technologies; Continuous Learning and Emerging Technologies
